## FLOTATION PLANT IS NEARLY COMPLETED

## TONOPAH PEOPLE WILL HANDLE BIG TONNAGE OF ORE ON THE FLORENCE DUMPS

The Nevada Metal Extraction company, a corporation controlled by Tonopah people, has practically completed its plant on the Florence property at Goldfield. The capacity of the works will be from 150 to 200 tons daily. The plant was erected by Campbell & Kelly of this city and they expect to have it running within the next seven or eight days.

There are two other oil flotation plants being constructed in the Goldfield district. The Goldfield Consolidated is constructing one with a first unit of fifty tons, that is somewhat along the line of an experiment. If it proves a success the capacity will at once be increased many times.

## ADDRESS ON SOCIALISM WILL BE DELIVERED

The foremost figure in the anti-militarist propaganda in America today is George R. Kirkpatrick, who will speak at the Airdome, Thursday evening, March 2nd.

As a speaker Kirkpatrick is incomparable. He holds his audience in a grip of iron. He paints capitalism and militarism to them with a vivid reality that makes men and women forget themselves and listen with breathless attention to his cutting sarcasm, his word pictures, his terrible indictment of war and the commercialism which produces war.

Kirkpatrick was graduated from Albion College (A.B.). He is a one year graduate student (with paying scholastic fellowship) in public finance, economics and history of Vanderbilt university, and a one year graduate student in sociology, education and economics of the University of Chicago. Kirkpatrick is a lecturer for the New York City board of education, an instructor in the New York Rand school of social science, and has taught college classes in sociology and economics at various colleges and universities.

## PROSPERITY FOR STATE OF NEVADA

## VICE-PRESIDENT OF SOUTHERN PACIFIC PREDICTS INFLUX OF COLONISTS

Nevada, in the opinion of E. O. McCormick, vice-president of the Southern Pacific company, is destined to receive a large influx of colonists from the east this year and derive exceptional benefits from the advantages that will be offered them by the Southern Pacific company, provided the people of the state make it a point to see that the land seekers are satisfied by getting the kind of land they want at the right price. Inasmuch as Mr. McCormick has charge of the traffic of the Southern Pacific company, he should be in a position to know whereof he speaks. Mr. McCormick was in Reno a few days ago and in an interview with the Gazette said:

"I look for a very large movement of settlers from the east to the western states during the coming summer, and Nevada will reap untold benefits from the influx, provided the people of the state who are in a position to do so, exercise sound judgment in

providing for the landseekers what they want at prices that are satisfactory. The Southern Pacific company intends to pay particular attention to colonization schemes in Nevada this year, and will put into effect within the next few months colonist rates from all eastern points. We will start the movement west and it will be up to the people of your state to see that the colonists find what they are looking for."

## AMUSEMENTS

## BUTLER THEATER

Marguerite Clark, the popular screen artist, will be seen tonight at the Butler in "Seven Sisters," a five-part film adaptation of the celebrated international comedy, dealing with the efforts of a widow in a typical Hungarian town to marry off her seven daughters, which is a much more serious matter in Hungary than it is in this country. Out of her struggles to find them husbands, according to their ages, to keep the younger ones out of sight until the older ones had been disposed of, and assume the appearance of adequate youth in all of them, arises the fun of this excruciatingly humorous photoplay. Miss Marguerite Clark, as the principal, is wholly captivating. The originality of the idea and the attractiveness of its characters and situations combine to make a photoplay which everyone will want to see, and which everyone will send his or her friends to go to see. The preliminary reel will be Paramount travel pictures. Tomorrow, a Pathe comedy, and "The Scarlet Road," a story of Broadway and the night life in New York, featuring Malcolm Duncan, Anna Q. Nilsson and Della Connor.

## FOUNDRYMEN SUE TO RECOVER INSURANCE

## SUIT AGAINST THE HARTFORD COMPANY BEGUN BY CAMP, BELL &amp; KELLY

Suit has been instituted by Campbell & Kelly against the Hartford Fire Insurance company to recover \$2,500 insurance on the buildings of the plaintiff, which were destroyed last fall by fire, entailing a loss several times the amount of insurance carried in the various companies, all of which, except the Hartford, have made settlement.

The plaintiffs claim that they were notified that the policy should have been made in two parts to cover the two buildings, instead of having been issued as one policy, but otherwise no satisfaction, they say, has been received. The action is to recover \$2,500 and costs.

## A BUSY INSTITUTION

Campbell & Kelly's foundry has been completely rehabilitated since the fire. There are now twenty-two mechanics employed and it is expected that this number will be materially increased when the spring rush begins.
